VERIFICATION OF PARTICIPATION

Student's name: Dr. Elena Vinnova
Course Title: Understanding and Managing Dentinal Hypersensitivity
Lecturer: Dr. Fiona Collins
Date completed: 4/15/2024
Method: Electronically Mediated
Credit type: Self-Study
Credit hour(s) earned: 1
**AGD Subject Code:** 161
Description and learning objectives:
The prevalence of dentinal hypersensitivity has been reported to be up to 57% and greater in the general population, with a significantly higher prevalence reported for periodontal patients. Further, in clinical practice, patients with hypersensitivity may not complain of this condition. Dentinal hypersensitivity is diagnosed by exclusion. Management of dentinal hypersensitivity can be achieved with home use products and through the use of in-office therapies. This CE webinar will discuss the prevalence and etiology of dentinal hypersensitivity, its management and available in-office and home-use therapies. During this CE webinar, we will: • Review the prevalence and etiology of dentinal hypersensitivity risk factors for this condition • Describe the mechanism by which dentinal hypersensitivity occurs • List and describe options for in-office and home-use management of dentinal hypersensitivity
